Q: would it be out of the ordinary course of business for does to be missing from a 201 file?
A: I would be unhappy @ it. We strick to keep 201 files complete This is a 1954 doe but I am
distressed to find a strat. such as this.
I have seen 201 files that got every doc in them that the run shows they should have them in
EI have seen others that did not. Quit e often what happens is that the x referencing is not done
right i those does may exist elsewhere but the x-ref. action never took place that actually
got entered in the 201 file.

Procedure to defermine missing does.
- Dotain a machine listing of everything in LHO's file e make x-vefeveneing cheek - Ask IMS to conduct search e see if they can reconstruct file.
